**LINGUALIFE OFFERS A WIDE RANGE OF
INTERPRETING SERVICES**

Ranging from remote simultaneous interpreting (RSI), on-site simultaneous, consecutive, to whispering interpreting for your multilingual events such as conferences, townhall meetings, webinars and trainings.

Our interpretation services will help you to communicate across language borders or cultures. Lingualife has been providing full-scale interpreting solutions to businesses, government agencies, law firms, NGOs like WHO, UNICEF and other UN organizations. With a global network of interpreters available in 30+ languages, we will make your multilingual event a real success.

REMOTE SIMULTANEOUS INTERPRETING FOR YOUR MULTILINGUAL ONLINE CONFERENCES

We make your events truly multilingual!

Lingualife offers remote simultaneous interpretation (RSI) services for your meetings and events. Your meeting participants can enjoy real-time interpreting in their chosen language.

Dedicated Support

Spend less time on logistics and more time running amazing events, while our project and technical support teams take care of the rest.

We offer a full-scale technical support that manages everything from setting up the event on the platform, carrying out test calls and sound checks to troubleshooting and technical monitoring during the event.

Online, Hybrid or On-Site

Enjoy the flexibility of our tailored solutions around your event type, setup, and size - no matter where your delegates and audience connect.

ON-SITE INTERPRETATION SERVICES FOR YOUR MULTILINGUAL MEETINGS, TOWNHALLS, AND CONFERENCES

We offer high-quality on-site interpreting where and when you need it. Just choose the on-site interpretation service that best fits your needs.

ON-SITE CONSECUTIVE INTERPRETATION

Consecutive interpretation is our most popular face-to-face interpretation service. In consecutive interpretation, a person speaks in one language and then pauses for the interpreter to convey what was said in the listener's language.

It often requires only one interpreter, so it is generally the most cost-effective on-site interpretation solution. Speakers must remember to pause from time to time to allow the interpreter to speak so it can create delays in communication. Consecutive on-site interpretation is ideal for 1-on-1 or small-group interpretation scenarios where most attendees speak a common language, such as:

- Small business meetings
- HR meetings
- Client-attorney meetings
- Court dispositions
- Interviews
- Medical consultations
- And more...

ON-SITE SIMULTANEOUS INTERPRETATION

Simultaneous interpretation takes place in real-time, using specially trained, two-person teams working together and broadcasting their voice to an audience wearing wireless headsets. You may hear it referred to as real-time interpretation or UN-style interpretation.

Simultaneous interpretation assignments require specialized equipment, and it is not uncommon to have multiple booths and teams to cover several languages at large events.

Simultaneous on-site interpretation services are ideal for large groups and multiple-language scenarios, such as:

- Conferences
- International conventions
- Business/board meetings
- Lectures
- Courtrooms
- Facility tours
- Training sessions
- And more...

NOT SURE WHICH ON-SITE INTERPRETATION SERVICE YOU NEED?

No problem! We know it can be confusing to understand exactly what you need. In addition to consecutive and simultaneous solutions, we can offer you all kinds of on-site interpretation services like liaison interpretation, whispered interpretation, bilateral interpretation, and more.
