EOY 2022

A record-breaking business year is coming to an end. Apart from a substantial growth for each of our three Business Units, we won strategically important RfPs and entered new partnerships with UN organizations and medium and large-scale enterprises. Related to this, we were able to extend our key service portfolio for interpreting including barrier-free communication, subtitling, and copywriting by two additional industries and 11 new languages.

More e-commerce and legal translations than ever before

In 2022, we translated more than 3 million words of e-commerce content into a total of 17 languages, which is a rise in e-commerce translation volume by more than 15% compared to 2021.

Quality goals

Our greatest reward is the happiness of our clients. Hence, we are more than happy to have reached our annual quality goals with a client satisfaction and on time delivery rate above 98 %.

In January 2023, we will have our next external quality audit at Lingualife, which is the next milestone in our QA agenda.
